HacksMods » Turnigy 9x Manuals Every now and then I see someone on the forum looking for the Turnigy 9x manual. So I compiled a few and am linking them here for your convenience. First up is the Imax-9x. Which is the same radio as the Turnigy 9x. The manual is fully applicable and has nice soft colorations. Looks good. Click on the logo to download from Box.net: The Copter X is also a pretty nicely put together manual. Fully applicable to the Turnigy 9x. Click on the Copter X logo to download from Box.net The Eurgle is a no frills, black and white manual. Good because the PDF is only 6MB in size. It is available in two parts from Hobby King, but I combined both parts into one file to make it convenient for you guys. Click on it's logo to download from Box.net. * The preview only show first 10 pages of manuals. Please download to view the full documents. Loading preview... Please wait.
